Car values fluctuate wildly, never more so than in our current economic environment. Pricing information is a must for collectors, restorers, buyers, sellers, insurance agents and a myriad of others who rely on reliable authoritative data. With well over 300,000 listings for domestic cars and light trucks, and various import vehicles manufactured between 1901 and 2012, this is the most thorough price guide on the market. This invaluable reference is for the serious car collector as well as anyone who wants to know the value of a collector car they are looking to buy or sell. Prices in this must-have reference reflect the latest values, in up to six grades of condition, from the esteemed Old Cars Price Guide database. New information for the most recent model year will also be added to our new Old Car Report database.

START-UP NATION addresses the trillion dollar question: How is it that Israel-- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

All models.

Now revised and updated, this book tells the story of how the automobile transformed American life and how automotive design and technology have changed over time. It details cars' inception as a mechanical curiosity and later a plaything for the wealthy; racing and the promotion of the industry; Henry Ford and the advent of mass production; market competition during the 1920s; the development of roads and accompanying highway culture; the effects of the Great Depression and World War II; the automotive Golden Age of the 1950s; oil crises and the turbulent 1970s; the decline and then resurgence of the Big Three; and how American car culture has been represented in film, music and literature. Updated notes and a select bibliography serve as valuable resources to those interested in automotive history.

A life-changing guide to digging yourself out of financial debt without having to give up your luxe lifestyle habits. Natalie McNeal opened her bills in January 2008 to find that she was a staggering five figures—\$20,000!—in debt. Young, hip and gainfully (if Dilbert-ly) employed, Natalie loved her lifestyle of regular mani/pedis, daily takeout and nights on the town, but clearly something had to give. And so The Frugalista Files was born. Through her blog, Natalie confessed her spending habits to the world—and it turns out she wasn't the only one having trouble balancing the budget! From the drastic "no-buy" month that kicked it all off to the career gamble that threatened to put her deeper in the hole, The Frugalista Files shares Natalie's personal and professional transformation from cubicle rat to take-charge career girl. It is possible to get ahead without giving up on the fabulous life. This is personal finance in peep-toe pumps—the empowering true story of one woman's personal and professional transformation and your ultimate guide to living the Frugalista lifestyle, too.

Reviews of more than 190 automobiles, four-wheel drive vehicles, and compact vans are accompanied by specification data, the latest prices, and recommendations, as well as lists of warranties, and tips on financing and insurance.

Covers principles of operation, troubleshooting, maintenance and repair of the modern braking system. Information on tool selection and usage is included, plus a chapter on brake system modifications and high-performance brake parts.
