Beat about the Bush is a series of remarkable books for outdoor and nature lovers. This comprehensive guide has been expanded to include not only mammals, birds and reptiles, but amphibians, invertebrates, plants, field signs and clues as well. The information is portrayed in the same detailed yet user-friendly, question-and-answer format. Have you ever wondered ... - why birds often fly in formation, - why hornbills call with their wings open, - why cuckoos lay their eggs in other birds' nests - and how long crocodiles can stay under water with one breath? Interesting information on the plants these animals depend on is also included, as are the most interesting aspects of climate/weather, geology, astronomy and bush management practices.

Revealing fascinating insights into the mysterious lives of birds native to the mother continent, this remarkable guide exhibits the many vibrantly colorful species found in the South African bush. Providing an in-depth discourse on all aspects of bird life--detailing their myriad forms, survival strategies in a

harsh landscape, breeding and feeding behaviors, movements, migrations, preferred habitat, unique behavioral patterns, and vocalizations--this comprehensive manual also expertly advises on how to easily and accurately identify each individual species. Populated with more than 900 brilliantly vivid photographs and exhaustively researched to fill the gap in existing literature and field guides, this essential reference will delight nature lovers, tourists, birdwatchers, and bush lovers alike.

More comprehensive than a field guide yet more accessible than an academic text, this authoritative reference answers fundamental questions about mammals and birds in the African bush such as How does an elephant's trunk work? Is the cheetah really the fastest animal? and Why do some bird species sit on animals? Photographs, charts, and tables accompany the question-and-answer format, making this all-in-one guide user-friendly for both wildlife enthusiasts and professionals.

Filling the gap between basic mammal guides and extensive academic texts, this resource answers everyday questions about mammals in an understandable fashion that will appeal to tourists, bush enthusiasts, and field guides. Addressing everything from how an elephant's trunk works to why the blue whale is not a fish, this question-and-answer guide includes more than 700 color photographs and a detailed section on tracks and signs, making it a must-have for anyone wanting to know about the mammals of the bush region.

"Game Ranger in your Backpack" is an essential companion for amateur naturalists of all descriptions including first-time international visitors to South Africa's bushveld, annual local holidaymakers or aspiring game rangers

A definitive field guide to the Antelope of Africa, this book conveys their conservation status, threats and risks for survival, distribution ranges, habitat requirements, habits, and how some of the species were introduced to the scientific world. With text complemented by distribution maps, full-color photographs, and the latest taxonomic classifications, this book also features specific reference to antelope sub-species as the conservation prospects for many species differ from region to region. The Antelope of Africa also shares the story of Africa's antelope and, as the antelope family is becoming increasingly threatened as population numbers are on the decline almost everywhere, it aims to raise appreciation for the diversity of antelope species and their plight in a changing Africa.

Lord Peter Wimsey and Harriet Vane investigate a dead body on the beach in this "nearly perfect detective story" by the author of *Busman's Honeymoon* (Saturday Review). Harriet Vane has gone on vacation to forget her recent murder trial and, more importantly, to forget the man who cleared her name—the dapper, handsome, and maddening Lord Peter Wimsey. She is alone on a beach when she spies a man lying on a rock, surf lapping at his ankles. She tries to

wake him, but he doesn't budge. His throat has been cut, and his blood has drained out onto the sand. As the tide inches forward, Harriet makes what observations she can and photographs the scene. Finally, she goes for the police, but by the time they return the body has gone. Only one person can help her discover how the poor man died at the beach: Lord Peter, the amateur sleuth who won her freedom and her heart in one fell swoop. *Have His Carcase* is the 8th book in the Lord Peter Wimsey Mysteries, but you may enjoy the series by reading the books in any order. This ebook features an illustrated biography of Dorothy L. Sayers including rare images from the Marion E. Wade Center at Wheaton College.
