New York: Club Kids is a high impact visual diary of New York City in the 1990s, seen through the eyes of Waltpaper, a central figure within the Club Kids. The Club Kids comprised an artistic and fashion-conscious youth movement that crossed over into the public consciousness through appearances on daytime talk shows, magazine editorials, fashion campaigns, and music videos, planting the seeds for popular cultural trends such as reality television, self-branding, influencers, and the gender revolution. Known for their outrageous looks, legendary parties, and sometimes-illicit antics, The Club Kids were the hallmarks of Generation X and would prove to be the last definitive subculture group of the analog world. The '90s, whose 30th anniversary is quickly approaching, has come to be known as the last discernible and cohesive decade, cherished by those who experienced it and romanticized by those who missed it. The first comprehensive visual document of '90s nightlife and street culture, New York Club Kids grants special access to a dormant world, curated and narrated by someone who participated in the experience. Featuring rare photographs and ephemera, the book culls from the personal archives of various photographers and artists whose recognition is long overdue.

This title is a stunning visual study and rigorous critical analysis of the social trends relating to 'club culture'.
