YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH"! * The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE * The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH * The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE * The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.

"Transportation Research Record: Journal of the Transportation Research Board, No. 2270 consists of 22 papers that explore laboratory tests of tire-pavement noise for hot mix asphalt, temperature effects on onboard sound intensity measurement of tire-pavement noise, annoyance of traffic noise on roads and rail, alternative uses of highway rights-of-way, wildlife crossing structures location and design, use of MOVES and AERMOD emissions models for conformity analysis, generating heavy-duty truck activity data for MOVES emissions model, and exposure of bicyclists to air pollution. This issue of the TRR also examines engine idling emissions from nonroad diesel construction equipment; air quality at bus stops; modeling roadway link PM2.5 emissions; environmentally conscious design of crest vertical curves; carbon footprint of dedicated truck lanes on I-70; predictive ecocruise control system; analysis of intersection emissions with MOVES emissions model; vehicle emissions estimates using traffic microsimulation models; inclusion of regional transit emissions in local greenhouse gas inventories; in-vehicle exposure to traffic-induced emissions; environment-responsive traffic control impact on roadside particulate matter and nitrogen oxides; decomposition analysis for carbon dioxide emissions from car travel; duty cycles, fuels, and emission control technologies of heavy-duty trucks; and quantitative decision-making framework for evaluating environmental commitment tracking systems"--Pub. desc.

Showcases the Web design and publishing tool's updated features, covering toolbars, palettes, site management tools, layout design, Cascading Style Sheets, and image maps.

An illuminating collection of work by members of the Religious Society of Friends. Covering nearly three centuries of religious development, this comprehensive anthology brings together writings from prominent Friends that illustrate the development of Quakerism, show the nature of Quaker spiritual life, discuss Quaker contributions to European and American civilization, and introduce the diverse community of Friends, some of whom are little remembered even among Quakers today. It gives a balanced overview of Quaker history, spanning the globe from its origins to missionary work, and explores daily life, beliefs, perspectives, movements within the community, and activism throughout the world. It is an exceptional contribution to contemporary understanding of religious thought. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.
