A highly original theory of how the mind-brain works, based on the author's study of single neuronal cells. In *I of the Vortex*, Rodolfo Llinas, a founding father of modern brain science, presents an original view of the evolution and nature of mind. According to Llinas, the "mindness state" evolved to allow predictive interactions between mobile creatures and their environment.

In fluid dynamics, a vortex is a region in a fluid in which the flow revolves around an axis line, which may be straight or curved. Vortices form in stirred fluids, and may be observed in smoke rings, whirlpools in the wake of a boat, and the winds surrounding a tropical cyclone, tornado or dust devil.

Self Is, etc.) Being in the vortex means you're at one with who you really are, you're feeling fab, and in vibrational alignment to your desires. It's represented by feelings like enthusiasm, inspiration, passion, joy, and appreciation.

~~What is the Vortex? (The What, Why & How of It) | Good ...~~

The vortex is a vibrational state/reality where the things we want exist. When we identify a desire or a thing that we want, they come into being in the vortex. For every question, there is an answer and for every problem there is a solution. We identify questions and problems in our day-to-day lives, and the answers and solutions are generated ...
