At a convention for the cult science fiction show Beyond Earth, Adrian Monk meets fans as obsessive-compulsive as he is. Though he ' s not preoccupied with the program, Monk can understand the phenomenon. Who wouldn ' t want to live in an imaginary world? But there may be a killer in the Beyond Earth community: Someone in a starship uniform has gunned down the show ' s legendary creator. Could a fan be that furious at him for selling out to Hollywood? Or is more going on behind the scenes? Luckily, Monk ' s agoraphobic brother, Ambrose, is an expert on the TV series, and together they ' ll search the earth and beyond for the murderer. That is, if Ambrose can bring himself to leave the house. A new story starring Adrian Monk by Edgar® Award-nominated screenwriter Lee Goldberg. It ' s compulsive, page-turning fun. " Even if you aren ' t familiar with the TV series Monk, this book is too funny to not be read." —The Weekly Journal

From the ordered universe of the ancient Greeks to the shadows of Nietzsche's nineteenth century, LEARNING TO LIVE shakes the dust from the history of philosophy and takes us on a fascinating journey through more than two millennia of humanity's search for understanding - of the world around us and of each other. Both a sparkling and accessible history of Western thought, and a courageous dissection of how religion and philosophy have converged and clashed through the ages, Luc Ferry's blueprint for a new humanism challenges every one of us to learn to think for ourselves, and asks us the most important question of all: how can we live better?
