TOP 250+ Statistics Interview Questions and Answers 26 ...

If you had picked clubs in each of the previous 3 draws, then your probability of drawing the last club will be  $1/13$ . If you had drawn 2 clubs in the previous 3 draws, your probability would be  $2/13$  and so forth. Hence, you will need to add up  $1/13+2/13+3/13+4/13$  to get  $10/13$ , which should be the final answer.
