The Penguin Dictionary Of Symbols by Alain Gheerbrant ...  
The Penguin Dictionary Of Symbols: Buchanan-Brown, John, Chevalier, Jean, Gheerbrant, Alain: Amazon.com.au: Books. \$39.68.

This remarkable and wide-ranging book is an inventory of symbols and the symbolic imagination. The editors and their fifteen contributors are drawn from a variety of scholarly backgrounds—including anthropology, ethnology, psychotherapy and art history. This diversity of approach is responsible for the book's unique character, a reflection of the multiplicity of symbols and signs and the phenomenal range of possible interpretations they offer. This book draws together folklore, literary and artistic sources, and focuses on the symbolic dimension of every colour, number, sound, gesture, expression or character trait that has benefitted from symbolic interpretation. The conscious and unconscious minds are explored, desire and dreams are treated alongside the known and the chronicled. Extraordinary in its range and eclecticism, this dictionary was originally published in French as the Dictionnaire des Symboles, and it is regarded as the standard work on the subject.

A classic encyclopedia of symbols by Catalan polymath Joan Cirlot that illuminates the symbolic underpinnings of myth, modern psychology, literature, and art. Juan Eduardo Cirlot's A Dictionary of Symbols is a feat of scholarship, an act of the imagination, and a tool for contemplation, as well as a work of literature, a reference book that is as indispensable as it is brilliant and learned. Cirlot was a composer, a poet, an art critic, and a champion of modern art whose interest in surrealism helped to bring him to the study of symbolism. Carl Jung, Mircea Eliade, René Guénon, Erich Fromm, and Gaston Bachelard also helped to shape his thinking in a book that explores the space between the world at large and the world within, where, as Cirlot sees it, nothing is meaningless, everything is significant, and everything is in some way related to something else. Running from "abandonment" to "zone" by way of "flute" and "whip," spanning the cultures of the world, and including a wealth of visual images to further bring the reality of the symbol home, A Dictionary of Symbols, here published for the first time in English in its original, significantly enlarged form, is a luminous and illuminating investigation of the works of eternity in time.

The Penguin Dictionary of Symbols By Jean Chevalier

This encyclopedic guide explores the rich and varied meanings of more than 2,000 symbols—from amethyst to Zodiac.

The use of symbolism is an art, not a science. Different people use symbols in a variety of ways and each symbol can have diverse meanings, even within the same culture. Not surprisingly, determining the meaning of symbols can be difficult. This valuable reference defines the general symbolism of more than 15,000 terms, from ancient to modern, as well as specialized meanings in mythology, religion, art, literature, folklore, flower language, astrology, heraldry, numerology, and cultures the world over. From "0" to "Zu," each entry catalogs all possible connotations, listed by culture when appropriate, creating the most comprehensive symbolism dictionary available.

Discusses symbolism in folklore, art, and literature

An alphabetical reference with more than 1,500 entries that trace symbols to their cultural, religious, or mythological origins, and explain the hidden or encoded meaning that lies concealed beneath objects' and concepts' ordinary, outward appearance.

The Complete Dictionary of SymbolsBy Jack Tresidder

"A Companion volume to James Hall's perennial seller Dictionary of Subjects & Symbols in Art. which deals with the subject matter of Christian and Western art, the present volume includes the art of Egypt, the ancient Near East, Christian and classical Europe, India and the Far East. Flail explores the language of symbols in art showing how paintings, drawings and sculpture express man shades of meaning from simple, everyday hopes and fears to the profoundest philosophical and religious aspirations. The book explains and interprets symbols from many cultures, and over 600 illustrations clarify and complement the text. There are numbered references throughout the text to the sacred litcrac-1 ture, myths and legends in which the symbols had their origins. Details of English translations of the works are in the bibliography. The book includes an appendix of the transcription of Chinese, notes and references, bibliography, chronological tables and index."

In nearly 1500 entries, many of them strikingly and often surprisingly illustrated, J. C. Cooper has documented the history and evolution of symbols from prehistory to our own day. With over 200 illustrations and lively, informative and often ironic texts, she discusses and explains an enormous variety of symbols extending from the Arctic to Dahomey, from the Iroquois to Oceana, and coming from systems as diverse as Tao, Christianity, Judaism, Buddhism, Islam, Tantra, the cult of Cybele and the Great Goddess, the Pre-Columbian religions of the Western Hemisphere and the Voodoo cults of Brazil and West Africa.
