Z Corporation was founded in December 1994 by Marina Hatsopoulos, Walter Bornhorst, James Bredt and Tim Anderson, based on a technology developed at MIT under the direction of Professor Ely Sachs. The Company was sold to Context Holding in August 2005, and was ultimately acquired by 3D Systems on January 3, 2012. ZPrinting relates to the z axis which adds depth to the other 2 axes x,y as does 3D printing. In 1993, a new 3D printing technology, ZPrinting, was developed at the Massachusetts Institue

Z-Corporation—Wikipedia
The Z450 produces high-quality prints with an eye-watering range of colors that put standard FDM 3D printers to shame. The printing process is also extremely streamlined due to the arrangement of the chambers and their various dry, vacuum, and print functions. The printer is also very waste conscious and automatically reuses excess powder.

Zorp 3D Printer Review 2020—Is This 3D Printer Worth...
Z Corp. 3D printers use standard inkjet printing technology to create parts layer-by-layer by depositing a liquid binder onto thin layers of powder. Instead of feeding paper under the print heads like a 2D printer, a 3D printer moves the print heads over a bed of powder upon which it prints the cross-sectional data sent from the ZPrint software.

Z-Corporation 3D Printing Technology—Polynet
Z Corporation (corporate site) was founded in 1994 in Burlington MA and initially gained an exclusive license for 3DP technology from MIT for the rapid prototyping market. Z Corporation joined Context Holding A/S group of companies in 2005.

Z-Corporation: 3D Printing and the Engineering Office...
Z Corporation 's 3D printing technology helps Cisco quickly and inexpensively create the physical models it needs. A 3D printer creates physical objects from 3D computer-aided design data much as a 2D printer creates documents from word-processing text.

Z-Corporation 3D printing technology new utilized by Cisee...
This unique, 24-bit color, 3D printing capability produces color models that accurately reflect your original design data. Color models communicate more information than any other type of rapid prototype, providing you with a strategic advantage in product development. Only Z Corporation 's 3D printers are capable of printing in multiple colors.

Z-Corp Spectrum Z610 3D Printer—eBay
AI Dean takes an in-depth look at the ZPrinter 650, which brings the most recent innovations in high-definition colour and integrated post processing to Z Corporation 's high-end 3D printing offering for the first time.. Recently, Z Corporation has expanded its 3D printing products to include both high-resolution colour capabilities and facilities for model post processing – such as powder ...

Z-Corporation ZPrinter 650—DEVELOP3D
With its best-in-class speed, ability to print in full color and economical, office friendly use of printing materials, Z Corporation's 3D printing technology is widely used by some of the world's most innovative companies to speed design development in industries ranging from aerospace to footwear.

Z-Corporation 3D Printing Technology involved in the...
BURLINGTON, Mass., USA - Z Corporation today unveiled the world's first automated, monochrome 3D printer and the company's most affordable automated 3D printer to date, making advanced rapid prototyping technology more accessible to mainstream engineers and architects. Like other Z Corporation 3D printers, the ZPrinter® 350 converts 3D data into physical models much as desktop printers convert word-processing files into physical documents.

Z-Corporation Introduces First Automated, Monochrome 3D...
Research solutions that can help you get and stay ahead with deep dive webinars lead by 3D printing and software experts. Explore topics that matter to you, and take advantage of the live web events for real-time Q&As.

3D Printers, Software, Manufacturing & Digital Healthcare...
Z Corporation provides 3D printing technologies used to create new products and services more effectively than any other means. We serve the world's most productive designers and engineers, and are committed to making our solutions the fastest, easiest, most accessible, and most valuable.

Z-Corporation to be Acquired by 3D Systems—3D Systems
Technology Focus: Polymeric - Z-Corp 3D Printing. With John Kawola and Dave Tedder of Z-Corp. Visit <http://econolyst.co.uk/> for more information on Rapid Manufacturing.

Z-Corp—3D Printing
The term 3D printing originally referred to a powder bed process employing standard and custom inkjet print heads, developed at MIT by Emanuel Sachs in 1993 and commercialized by Soligen Technologies, Extrude Hone Corporation, and Z Corporation.

3D printing—Wikipedia
The acquisition of Z Corporation was completed on January 3, 2012 bringing the people, the products and solutions and channel partners under one brand, as one company - 3D Systems. 3D Systems is a...
